Rehabilitation Services
21 -8-06

Dear Sir,

We Purchased the Exerking Exercise Equipment seven years ago.
We are indeed very happy with the equipment and service rendered by you.

The features we appreciate are:

1. It is a compact Gym equipment, which occupies very little space.
2. The person using it can easily adjust it to the strength, power and speed output.
3. It gives maximum aerobic training.
4. It has proved very useful in postoperative head and neck cases for regaining shoulder function.
5. It is beneficial in treating patients with early osteoarthritis.
6. It is user-friendly and saves therapist time.
7. It does not require much maintainence.

Wishing you all the best.

Yours sincerely,

A handwritten signature in dark ink, appearing to read 'J.S. Badakere'.

Dr. (Mrs) J.S. Badakere
