To,
Mr. Parminder luthra,
Fluid - Tech Industries,
Mumbai.

Dear Sir,

We purchased the Exer - King three years ago and we are indeed very happy with the apparatus and the service rendered by you. The features we appreciate are:

- 1.It is a compact gym. equipment which occupies very little space.
- 2.It is self adjusting and automatically and continuously adjusts itself to the strength, power, speed-output and the need of the person using it.
- 3.It gives maximum aerobic training.
- 4.It has proved very useful in knee osteoarthritis cases.
- 5.It can save therapists time and most convenient for the patient's workout.
- 6.The maintenance service of Fluid-Tech industries is excellent.

Wishing you all the best.

Yours Sincerely,
